

# Safety Data Sheet

according to JIS Z 7253: 2019

Issue date: 3/14/2008 Version: 3.5 Revision date: 3/28/2025

# 1. Chemical product and company identification

Substance name : VINYBLAN 271

Recommended use of the chemical and restrictions on use

Recommended use : Coating agent, Binder Restrictions on use General industrial use

**Company information** 

Nissin Chemical Industry Co., Ltd.

100-0004 Japan

Shin Otemachi Building, 2-2-1 Otemachi, Chiyoda-ku, Tokyo

T +81-3-6262-0276 - F +81-3-6262-0277

# 2. Hazards identification

#### **GHS** classification

Health hazards

Physical hazards classification not possible **Explosives** 

> Flammable gases No classification

classification not possible Aerosol

Oxidizing gases No classification No classification Gases under pressure

Flammable liquids classification not possible

Flammable solids No classification

Self-reactive substances and

mixtures

classification not possible

Pyrophoric liquids classification not possible

Pyrophoric solids No classification

Self-heating substances and

mixtures

classification not possible

Substances and mixtures which

in contact with water emit

classification not possible

flammable gases

Oxidizing liquids classification not possible

Oxidizing solids No classification

Organic peroxides classification not possible Corrosive to metals classification not possible Desensitized explosives

classification not possible Acute toxicity (oral) classification not possible

Acute toxicity (dermal) classification not possible Acute toxicity (inhalation:gas) classification not possible

Acute toxicity classification not possible

(inhalation:vapours)

Acute toxicity classification not possible

(inhalation:dust/mist)

Skin corrosion/irritation classification not possible

Serious eye damage/eye Category 2

irritation

Respiratory sensitization classification not possible
Skin sensitization classification not possible
Germ cell mutagenicity classification not possible

Carcinogenicity classification not possible
Reproductive toxicity classification not possible
Specific target organ toxicity classification not possible

Specific target organ toxicity (single exposure)

Consider to construct the design

Specific target organ toxicity classif

(repeated exposure)

classification not possible

Aspiration hazard class

Aspiration hazard classification not possible Hazardous to the aquatic classification not possible

environment, short-term (acute)

Hazardous to the aquatic classification not possible

environment, long-term (chronic)

Hazardous to the ozone layer classification not possible

Hazard pictograms

Environmental

hazards

GHS Signal word : Warning

**Hazard statements** : Causes serious eye irritation. (H319)

**Precautionary statements** 

Prevention : Wash hands, forearms and face thoroughly after handling. (P264)

Wear protective gloves, protective clothing, eye protection, face

protection. (P280)

Avoid release to the environment. (P273)

Response : If in eyes: Rinse cautiously with water for several minutes. Remove

contact lenses, if present and easy to do. Continue rinsing.

(P305+P351+P338)

If eye irritation persists: Get medical advice/attention.

(P337+P313)

Get medical advice/attention if you feel unwell. (P314)

Storage : Store in a well-ventilated place. Keep cool. (P403+P235)

Disposal : Dispose of contents/container in accordance with

local/regional/national/international regulations. (P501)

# 3. Composition/information on ingredients

Distinction of substance or

: Mixture

mixture

Generic name : Colloidal dispersion of Vinyl chloride Based Copolymer

Name	Concentration (%)	Reference number in the gazette list		CAS-No.
		CSCL No	ISHL No	
Vinyl chloride based copolymer	40 - 50	Undisclosed	Undisclosed	Undisclosed
Surfactants	< 3	Undisclosed	Undisclosed	Undisclosed
Mineral oil	< 0.3	Undisclosed	Undisclosed	Undisclosed
Water	50 - 60	-	-	7732-18-5

#### 4. First aid measures

First aid measures

First-aid measures after

inhalation

: Remove the sufferers to fresh air places and keep themselves rest in an easy-to- breath position. Get medical advices immediately.

First-aid measures after skin contact

: Take off contaminated clothes, shoes and socks. And wash sticking parts off with soap and plenty of water. If the external changes are observed or the symptoms such as irritation or itchy appears, get medical advices immediately.

First-aid measures after eye contact

: Rinse immediately inner side of eyelid with plenty of water more than 20 minutes. Remove the contact lenses if possible. Get

medical advices.

First-aid measures after ingestion

: Rinse mouth thoroughly with water and get medical attention immediately.

Never give anything through mouth to an unconscious person.

# 5. Fire fighting measures

Suitable extinguishing media : Water and alkali salt, Fire foam, Dry chemical, Water mist.

# **Unsuitable extinguishing**

media

: Nothing in particular

#### Fire hazard

Fire hazard

: This product itself is not a flammable compound. But dry film after

evaporating water is flammable.

Carbon monoxide, hydrogen chloride, etc. may be generated

under fire conditions.

Hazardous decomposition products in case of fire

: In case of fire, hazardous decomposition products may be produced such as:Hydrogen chloride gas, Chlorocarbons, Carbon monoxide, carbon dioxide and residue of hydrocarbons.

### **Firefighting instructions**

Firefighting instructions

: Cut off ignition sources to a fire origin and fight a fire employing a

suitable fire extinguishing agent.

Cool by water spray around the fire site to prevent the fire

extension.

#### Personal protection (Emergency response)

response)

Personal protection (Emergency : Wear suitable protective tools such as goggles, boots, gloves, and body suits as well as a self-contained breathing apparatus to

avoid direct contact. Fight a fire from the windward.

Other information

: One of the general procedures for chemical fires may be applied. Use appropriate extinguishing measures considering the local circumstances and environments. Never inhale such smoke, etc. as are generated at fire and/or explosion. Use water spray to cool unopened containers. Recover the water contaminated with fire extinguishing agents separately. Never discharge this water into drains. Fire residues and contaminated fire extinguishing water must be disposed of complying with local regulations.

### 6. Accidental release measures

#### Personal Precautions, Protective Equipment and Emergency Procedures

General measures

: Wear a self-contained breathing apparatus and suitable chemical

protective clothes and tools, and work from windward.

### For emergency responders

Protective equipment

: Wear suitable protective tools such as goggles, boots, gloves, body suits and a self-contained breathing apparatus according to circumstances to avoid inhalation of and direct contact with

materials in question.

Emergency procedures

: Clear off all of ignition sources immediately.

Work from windward.

Stop release.

### **Environmental precautions**

Environmental precautions

: Never release this products to waters and soil.

If the products spill into rivers, lakes or marshes, inform the fire

station or authorities of the local governments.

### Methods and Equipment for Containment and Cleaning up

For containment

: When the releasing materials are large, prevent spreading by cover with banking and the like and vacuum and recover with a pump,etc.

When the releasing materials are small, recover as mortar after

mix with perlite, dirt, sawdust and/or the like.

Methods for cleaning up : Clean up the surroundings of the releasing area with water after

recovery and recover the contaminated water as well.

Prevention Measures for Secondary Accidents

: If the products spill into rivers, lakes or marshes, inform to the fire stations, authorities relating environment disruption, River Bureau, Water Supply Bureau, etc. of local governments, if necessary.

Other information : Take care of slip as released area becomes easy to slip.

# 7. Handling and storage

### Handling

Technical measures

: As polyvalent metal ions such as iron, copper, zinc, aluminum, etc. may cause collering, gelling, etc, pay care and attention for choice of storage installations, pipework, blenders and the like.

Use in well-ventilated areas.

Precautions for safe handling

: Wear suitable personal protecting tools such as protecting gloves, protecting glasses, etc. according to circumstances to avoid to contact with skin or eye(s).

Never treat containers roughly such as overturning, falling, dragging, impacting and the like.

Prevents handling of incompatible substances or

: No information.

Hygiene measures

: Wash hands at the end of each work shift before eating, smoking

or using the toilet.

Never eat, drink nor smoke during work.

Local and general ventilation

: In case of the work with generation of spray mist or vapor, install

local air exhausters.

### **Storage**

mixtures

Storage conditions : Storage temperature must be kept not less than 5°C and never

exceed 35°C.

Store indoor, preventing from sunlight and freezing.

Avoid dust, water, etc. coming into opened containers in use.

Material used in packaging/containers

: Use the containers having water resistance and durability, and

avoid from contact with metals as possible.

In case of translocation, use stainless or polyethylene containers

to prevent corrosion.

Technical measures : Keep containers stoppled tightly after use to prevent forming film.

Incompatible materials : Strong oxidizers. Reactive metals. (sodium, calcium, zinc, etc.).

Dehydrating agent.

# 8. Exposure controls / Personal protection equipment

VINYBLAN 271			
Japan - Occupational Exposure Limits			
Japan administration level	No data available		
Exposure limits (JSOH)	No data available		
Exposure limits (ACGIH)	No data available		

Appropriate engineering controls : Install sealing equipments or local exhaust equipments at indoor work,

Express the place clearly where safety shower(s) and hand and eye

washer(s) are equipped.

**Protective equipment** 

Respiratory protection : It is needless under normal conditions at well ventilated place, In

case of insufficient ventilation, wear suitable respiratory equipment

Hand protection : Impermeable protect gloves.

Eye protection : goggles style protective glasses

Skin and body protection : Protective boots, protective clothes.

# 9. Physical and chemical properties

Physical state : Liquid
Colour : milky

Odour : No data available

pH : 6 - 9

Melting point : No data available Freezing point : No data available

Boiling point :  $\approx 100$  °C Flash point : Nothing

Auto-ignition temperature : No data available

Decomposition temperature : No data available

Flammability : No data available Vapour pressure : No data available : No data available

Relative vapour density at

20°C

Relative density : No data available : No data available Density Relative gas density No data available Solubility : Miscible with water

octanol/water (Log Pow)

Partition coefficient n-

Explosive limits (vol %) : No data available : No data available Explosive limits (g/m³) Viscosity, kinematic : No data available Particle size : No data available

# 10. Stability and reactivity

Reactivity : No reactivity with water

: Stable under room temperature. Chemical stability

Possibility of hazardous

reactions

: No information

: No data available

Conditions to avoid : No information Incompatible materials : No information

Hazardous decomposition

products

: In case of fire, hazardous decomposition products may be produced

such as: Hydrogen chloride gas, Chlorocarbons, Carbon monoxide,

carbon dioxide and residue of hydrocarbons.

# 11. Toxicological information

No data available Acute toxicity (oral) : (as a product) No data available Acute toxicity (dermal) : (as a product) Acute toxicity (gas) -: (as a product) No data available

Description

No data available Acute toxicity (vapour) -: (as a product)

Description

No data available Acute toxicity (dust, mist) -: (as a product)

Description

Acute toxicity (mist) -: (as a product) No data available

Description

Skin corrosion/irritation : (as a product) No data available Serious eye damage/irritation : (as a product) There are no available data about this product.

There contain eye irritating materials

belonging to the following Category. Category 1: Surfactants(<3%) Concentration limits of Category 1 is ≥3%. Concentration limits of Category 2 is <3% ≥1%.So this product is correspond to Serious eye damage/eye

irritation Category 2 of GHS.

Respiratory sensitization : (as a product) No data available
Skin sensitization : (as a product) No data available

Germ cell mutagenicity : (as a product) No data available
Carcinogenicity : (as a product) No data available
Reproductive toxicity : (as a product) No data available
STOT-single exposure : (as a product) No data available

STOT-repeated exposure : (as a product) No data available

Aspiration hazard : (as a product) No data available

### 12. Ecological information

### **Ecotoxicity**

Ecotoxicity : (as a product) No data available
Hazardous to the aquatic : (as a product) No data available

environment, short-term

(acute)

Hazardous to the aquatic : (as a product) No data available

environment, long-term

(chronic)

Other information : It should not be allowed for the product to be run into drains,

water courses or the soil.

### Persistence and degradability

Persistence and degradability : (as a product) No data available

Biochemical oxygen demand : (as a product) No data available

(BOD)

Chemical oxygen demand : (as a product) No data available

(COD)

**Bioaccumulative potential** 

Bioaccumulative potential : (as a product) No data available

Partition coefficient n- : (as a product) No data available

octanol/water (Log Pow)

Mobility in soil

Mobility in soil : (as a product) No data available

Partition coefficient n- : (as a product) No data available

octanol/water (Log Pow)

Ecology - soil : (as a product) No data available

Hazardous to the ozone layer

Ozone : (as a product) No data available

Other adverse effects : No additional information available

13. Disposal considerations

**Ecological waste information**: Farm out disposal of the contents and packaging materials to

professional disposal treating traders in compliance with

requirements of the nation and local governments.

Contaminated container and

packaging

: In case of disposal of empty container, dispose after complete

removal in the container.

# 14. Transport information

### **International Regulations**

Transport by sea(IMDG)

UN-No. (IMDG) : Not applicable
Proper Shipping Name (IMDG) Not applicable
Packing group (IMDG) : Not applicable
Transport hazard class(es) : Not applicable

(IMDG)

Air transport(IATA)

UN-No. (IATA) : Not applicable
Proper Shipping Name (IATA) : Not applicable
Packing group (IATA) : Not applicable
Transport hazard class(es) : Not applicable

(IATA)

**Regulations in Japan** 

Other information

: At transportation, make sure of no leakage of packings, load the products without broken bags, falling, injury, etc, and prevent load collapses surely, See "7 Handling and storage"

conapose carely, electric standard and electric

# 15. Regulatory information

REACH SVHC : Contains substance(s) listed on the REACH Candidate List <

0.1% or SCL.

### 16. Other information

Data sources : Ref. 1."Safety Data Sheet" by Raw Material Manufacturers.

2.GHS Sixth Revised Edition. 3.NITE GHS Results of the

Classification.

Other information : The description of this SDS is based upon materials,

information and data which can be procured at present. However, we do not warrant any guarantee regarding the contents, physical and chemical properties, hazards and the like. The Products was developed for general industries' use. When applying to specific uses, it is hoped to confirm its safety

by yourselves prior to the use.

DISCLAIMER OF LIABILITY The information in this SDS was obtained from sources which we believe are reliable. However, the information is provided without any warranty, express or implied, regarding its correctness. The conditions or methods of handling, storage, use or disposal of the product are beyond our control and may be beyond our knowledge. For this and other reasons, we do not assume responsibility and expressly disclaim liability for loss, damage or expense arising out of or in any way connected with the handling, storage, use or disposal of the product. This SDS was prepared and is to be used only for this product. If the product is used as a component in another product, this SDS information may not be applicable
